bnc ELEVATE

CIA® exam preparation for students

Become a Certified Internal Auditor.

Live classes, AI tools training and an interactive exam simulator, built to take you through all three parts of the CIA® exam.

Enrol at elevate.bncglobal.in

Why the CIA®?

The Certified Internal Auditor® is the only globally recognised internal audit certification. For a student, it is the clearest way to show employers you are serious about a career in audit, risk and controls, and it travels with you to any country.

The exam, in three parts

1. **Internal Audit Fundamentals**
   125 questions, 2 hrs 30 min
2. **Internal Audit Engagement**
   100 questions, 2 hrs
3. **Internal Audit Function**
   100 questions, 2 hrs

New to audit? Start with the IAP™

The Internal Audit Practitioner from IIA India is an affordable, accessible first step for students and entry-level professionals: one exam that validates your skills and builds credibility early.

- No bachelor's degree needed
- A permanent designation: add "IAP" to your name
- Skip CIA Part 1 later, one-third of the way there
- Lower fees for IIA India members

220,000+
CIAs in 170 countries

94%
of audit leaders value the CIA over CPA/CA, CISA and CFE

70%
of chief audit executives prefer to hire CIAs

Markets served by our advisory work

Three-phase career support initiative

1

PHASE 1

Internal Audit Career Navigators

Guidance on GCCs, banking and Big 4 roles during your study. Help identifying suitable audit internships and qualifying work experience.

2

PHASE 2

Recruitment Network

Our recruitment team handles resume optimization, mock interviews and direct vacancy referrals across BNC Global's client network.

3

PHASE 3

Honest Mentorship & CPE Compliance

Clear upfront costs, zero hidden institutional fees and ongoing annual CPE reporting support after you earn your designation.

Support from an active consulting firm.
Placement help comes from BNC Global's own client network, so candidates are referred into corporate and GCC internal audit teams by a firm that works in the field every day.

Everything you need to pass, in one place.

Elevate combines teaching, practice and guidance through IIA registration, so you can focus on learning. Every package covers all three CIA® exam parts.

Live classes

Learn with senior CIA and CA faculty in real time, and ask questions as you go.

Interactive exam simulator

Practise in an exam-style environment, with full mock exams for every part.

5,000+ question test bank

The BNC CIA Test Bank, plus chapter-wise quizzes to check your progress.

IIA fee calculators

Work out your IIA costs up front, so there are no surprises later.

AI tools training

Hands-on AI for audit work: risk assessment, anomaly detection and documentation. Included in Premium Plus.

Career support

Resume reviews, mock interviews and placement network assistance after you qualify.

Your journey to the CIA®

Where do you start?

Three exams, sat at Pearson VUE test centres in any order. You have three years from acceptance to pass all three, and there is no negative marking.

Part 1
Internal Audit Fundamentals
125 questions · 2 hrs 30 min

Part 2
Internal Audit Engagement
100 questions · 2 hrs

Part 3
Internal Audit Function
100 questions · 2 hrs

Find your pathway

Master's degree

M.Com, MBA, MS, M.Sc or equivalent

To sit the exams
No experience needed to apply and sit all 3 exams.

To be certified
Pass all 3 exams + 1 year of internal audit or equivalent experience.

Bachelor's degree

Most common

B.Com, BBA, B.Sc, B.Tech, BA or equivalent. Final-year students can apply.

To sit the exams
No experience needed to apply and sit all 3 exams.

To be certified
Pass all 3 exams + 2 years of internal audit or equivalent experience.

Students and no degree

IAP™ fast track. No degree needed; proof of ID only.

To sit the exams
Pass the IAP (CIA Part 1 syllabus) within 2 years, then claim the Part 1 exemption within 4 years.

To be certified
Pass Parts 2 and 3, plus 1–2 years' experience by degree, or 5 years without one.

Qualified professionals

Active CA, CMA, CPA or CISA holders, or 10+ years' internal audit experience (pilot).

To sit the exams
Proof of active membership in good standing. Not open to students.

To be certified
One Challenge Exam: 150 questions in 180 minutes, up to 8 attempts in 3 years.

Experience is flexible. It can be gained before, during or after the exams. Qualifying roles: internal audit, quality assurance, risk management, audit or assessment, compliance, external audit and internal control.

Not sure which pathway fits? Verify your eligibility with our faculty.

Part 1

Internal Audit Fundamentals

125 questions · 2 hrs 30 min · also the IAP™ exam

A. Foundations of Internal Auditing · B. Ethics and Professionalism · C. Governance, Risk Management and Control · D. Fraud Risks

Section A. Foundations of Internal Auditing — 35%

1. **Purpose of internal auditing under the Global Internal Audit Standards**
   Objectives and benefits of the function; conditions for effectiveness
2. **Internal audit mandate**
   Authority, role and responsibilities; role of the board, senior management and the CAE
3. **Internal audit charter**
   Required components, discussion with stakeholders, board approval
4. **Assurance vs advisory services**
   Limited vs reasonable assurance; deciding which service fits
5. **Types of assurance services**
   Risk and control, third-party, IT security and privacy, performance, operational, financial, compliance, culture audits
6. **Types of advisory services**
   Training, system design, due diligence, data privacy, benchmarking, process mapping
7. **Independence of the internal audit function**
   Reporting lines, budget and scope limitations, board and CAE responsibilities
8. **Role in risk management**
   The IIA's Three Lines Model; first and second line roles; safeguards

Section B. Ethics and Professionalism — 20%

1. **Integrity**
   Honesty, professional courage, legal and professional behaviour
2. **Individual objectivity**
   Self-review and familiarity bias; conflicts of interest
3. **Policies that promote objectivity**
   Reassignment, outsourcing, disclosure, gifts and favours
4. **Competencies**
   Communication, critical thinking, research, negotiation, relationship-building, change management, CPD
5. **Due professional care**
   Strategy, GRC processes, cost-benefit, risk of fraud and error, professional scepticism
6. **Confidentiality**
   Policies, laws, methodologies, privacy and protection of information

Section C. Governance, Risk Management and Control — 30%

1. **Organisational governance**
   Roles of board, management and assurance providers; governance frameworks
2. **Culture and the control environment**
   Engagement risks and controls; decision-making processes
3. **Ethics and compliance issues**
   Legal and compliance requirements; auditor's role in the ethical framework
4. **Types of risk**
   Strategic, operational, financial, compliance, reputational, ESG; inherent vs residual
5. **The risk management process**
   Risk appetite and tolerance, risk cycle, risk responses
6. **Risk management in processes**
   Design and effectiveness; risk management frameworks
7. **Internal control concepts**
   Preventive, detective and corrective controls; recommending controls
8. **Design and effectiveness of controls**
   Financial and non-financial controls; control frameworks

Section D. Fraud Risks — 15%

1. **Fraud concepts and types**
   The fraud triangle; common fraud schemes
2. **Fraud in engagement planning**
   Processes with significant fraud exposure
3. **Fraud risk management**
   Red flags at organisation and process level; reporting them
4. **Fraud prevention and detection controls**
   Tone at the top, segregation of duties, authority levels, whistleblower hotlines
5. **Fraud investigation**
   Internal audit's role, interviewing, investigation and testing techniques

Source: The IIA, CIA exam syllabus (2025), condensed.

Part 2

Internal Audit Engagement

100 questions · 2 hrs

A. Engagement Planning B. Information Gathering, Analysis and Evaluation C. Engagement Supervision and Communication

Section A. Engagement Planning — 50%

1. **Engagement objectives and scope**
   Topical Requirements, stakeholder requests, scope limitations and changes
2. **Evaluation criteria**
   Choosing criteria that are specific, practical, relevant and reliable
3. **Planning to assess key risks and controls**
   Cybersecurity and IT general controls, data privacy, business continuity, finance and accounting, common business processes and ERP/GRC systems
4. **Engagement approach**
   Agile, traditional, integrated and remote auditing; project management
5. **Detailed risk assessment**
   Financial, operational, IT and regulatory risks; emerging risks; structure and culture
6. **Engagement procedures and work program**
   Testing control design, effectiveness and efficiency
7. **Resources and skills**
   Financial, human and technology resources; resource limits

Section B. Information Gathering, Analysis and Evaluation — 40%

1. **Sources of information**
   Interviews, observation, walk-throughs, data analysis, questionnaires
2. **Quality of evidence**
   Relevance, sufficiency and reliability of evidence
3. **Technology in auditing**
   AI, machine learning, RPA, continuous monitoring, dashboards
4. **Analytics and process mapping**
   Data types, the analytics process, predictive and anomaly analysis
5. **Analytical review**
   Ratios, variances, trends and benchmarking
6. **Findings**
   Criteria vs condition, root cause, effect and significance
7. **Workpapers**
   Organising, completeness, linkage to results, retention
8. **Engagement conclusions**
   Aggregating findings; conclusions on GRC effectiveness

Section C. Engagement Supervision and Communication — 10%

1. **Supervision**
   Work assignments, workpaper review, evaluating auditor performance
2. **Communication with stakeholders**
   Formal and informal methods, escalation, the right audience

Source: The IIA, CIA exam syllabus (2025), condensed.

Part 3

Internal Audit Function

100 questions · 2 hrs

A. Internal Audit Operations
B. Internal Audit Plan
C. Quality of the Internal Audit Function
D. Engagement Results and Monitoring

Section A. Internal Audit Operations — 25%

1. **Managing internal audit operations**
   External providers, monitoring, balancing assurance and advisory work
2. **Managing resources**
   Budgeting, recruitment, training and retention, performance management, technology
3. **Internal audit strategy**
   Alignment with business strategy; mission and vision; resource planning
4. **CAE communication with the board**
   Audit plan, independence concerns, significant risks, quality results

Section B. Internal Audit Plan — 15%

1. **Sources of potential engagements**
   Audit universe, regulatory mandates, emerging technologies such as AI and blockchain
2. **Risk-based audit plan**
   Risk assessment and prioritisation; keeping the plan dynamic
3. **Coordination with other assurance providers**
   Coordinating coverage and relying on others' work

Section C. Quality of the Internal Audit Function — 15%

1. **Quality assurance and improvement program**
   Internal and external assessments; qualified assessors; ongoing monitoring
2. **Disclosing nonconformance**
   What must be communicated and to whom
3. **KPIs and scorecards**
   Qualitative and quantitative performance measures

Section D. Engagement Results and Monitoring — 45%

1. **Attributes of effective communication**
   Accurate, objective, clear, concise, constructive, complete, timely
2. **Communicating engagement results**
   Report components; conformance statements; scope limitations
3. **Recommendations and action plans**
   Disagreements with management; addressing root causes
4. **Closing communication**
   Exit conference; distributing the final report; correcting errors
5. **Residual risk**
   Assessing controls, aggregating findings, rating scales
6. **Risk acceptance**
   When management accepts an unacceptable risk
7. **Monitoring action plans**
   Follow-up and tracking of management actions
8. **Escalation**
   When action plans are not implemented
